About Us

Zeartrik Group of Companies is a US-based trading firm built by traders, for traders. Leveraging cutting-edge AI technology, we specialize in Forex, cryptocurrency, and commodity markets, helping investors maximize their profits with precision-driven insights.

Our AI algorithms analyze vast amounts of market data, identifying lucrative trading opportunities and minimizing risks. Whether you're an institutional investor or an independent trader, our advanced trading solutions are designed to give you an edge in the ever-changing financial landscape.

At Zeartrik, we blend expertise with innovation to deliver a seamless trading experience. We are committed to transforming traditional investment approaches, making AI-driven trading the future of financial success.

Vision

To redefine the future of trading by integrating AI-driven intelligence, empowering investors to achieve consistent profitability in Forex, crypto, and commodities.

Mission

- "To provide traders with AI-powered tools for smarter, data-driven decision-making."
- "To optimize trading strategies using machine learning and real-time market insights."
- "We aim to bridge the gap between technology and investment, ensuring high returns with reduced risks."
- "To foster a transparent and innovative trading environment for investors worldwide."

12	\$100,000,000	\$100,000 for 12 Months

To qualify for the Monthly Performance Reward, the 40:30:30 Rule applies for team businesses.

INFORMED CONCENT

40:30:30 Rule for Team Business Calculation

The 40:30:30 rule applies to all team businesses. This means that when calculating the total group business, contributions from different teams are weighted as follows:

- 40% from the highest-performing team.
- 30% from the second-highest-performing team.
- 30% from the third-highest-performing team.

Example Calculation

Let's assume there are three teams: John's Team, Mary's Team, and George's Team. Their group business volumes are as follows:

- John's Team: \$10,000
- Mary's Team: \$20,000
- George's Team: \$50,000

Total group business: $\$10,000 + \$20,000 + \$50,000 = \$80,000$

Applying the 40:30:30 rule:

- 40% from George's Team (highest): $40\% \text{ of } \$50,000 = \$20,000$
- 30% from Mary's Team (second highest): $30\% \text{ of } \$20,000 = \$6,000$
- 30% from John's Team (third highest): $30\% \text{ of } \$10,000 = \$3,000$

The maximum payout for Trading Reward is capped at 200%

Affiliate bonus payouts are subject to a 300% maximum limit.

The minimum withdrawal amount is 10 USDT.

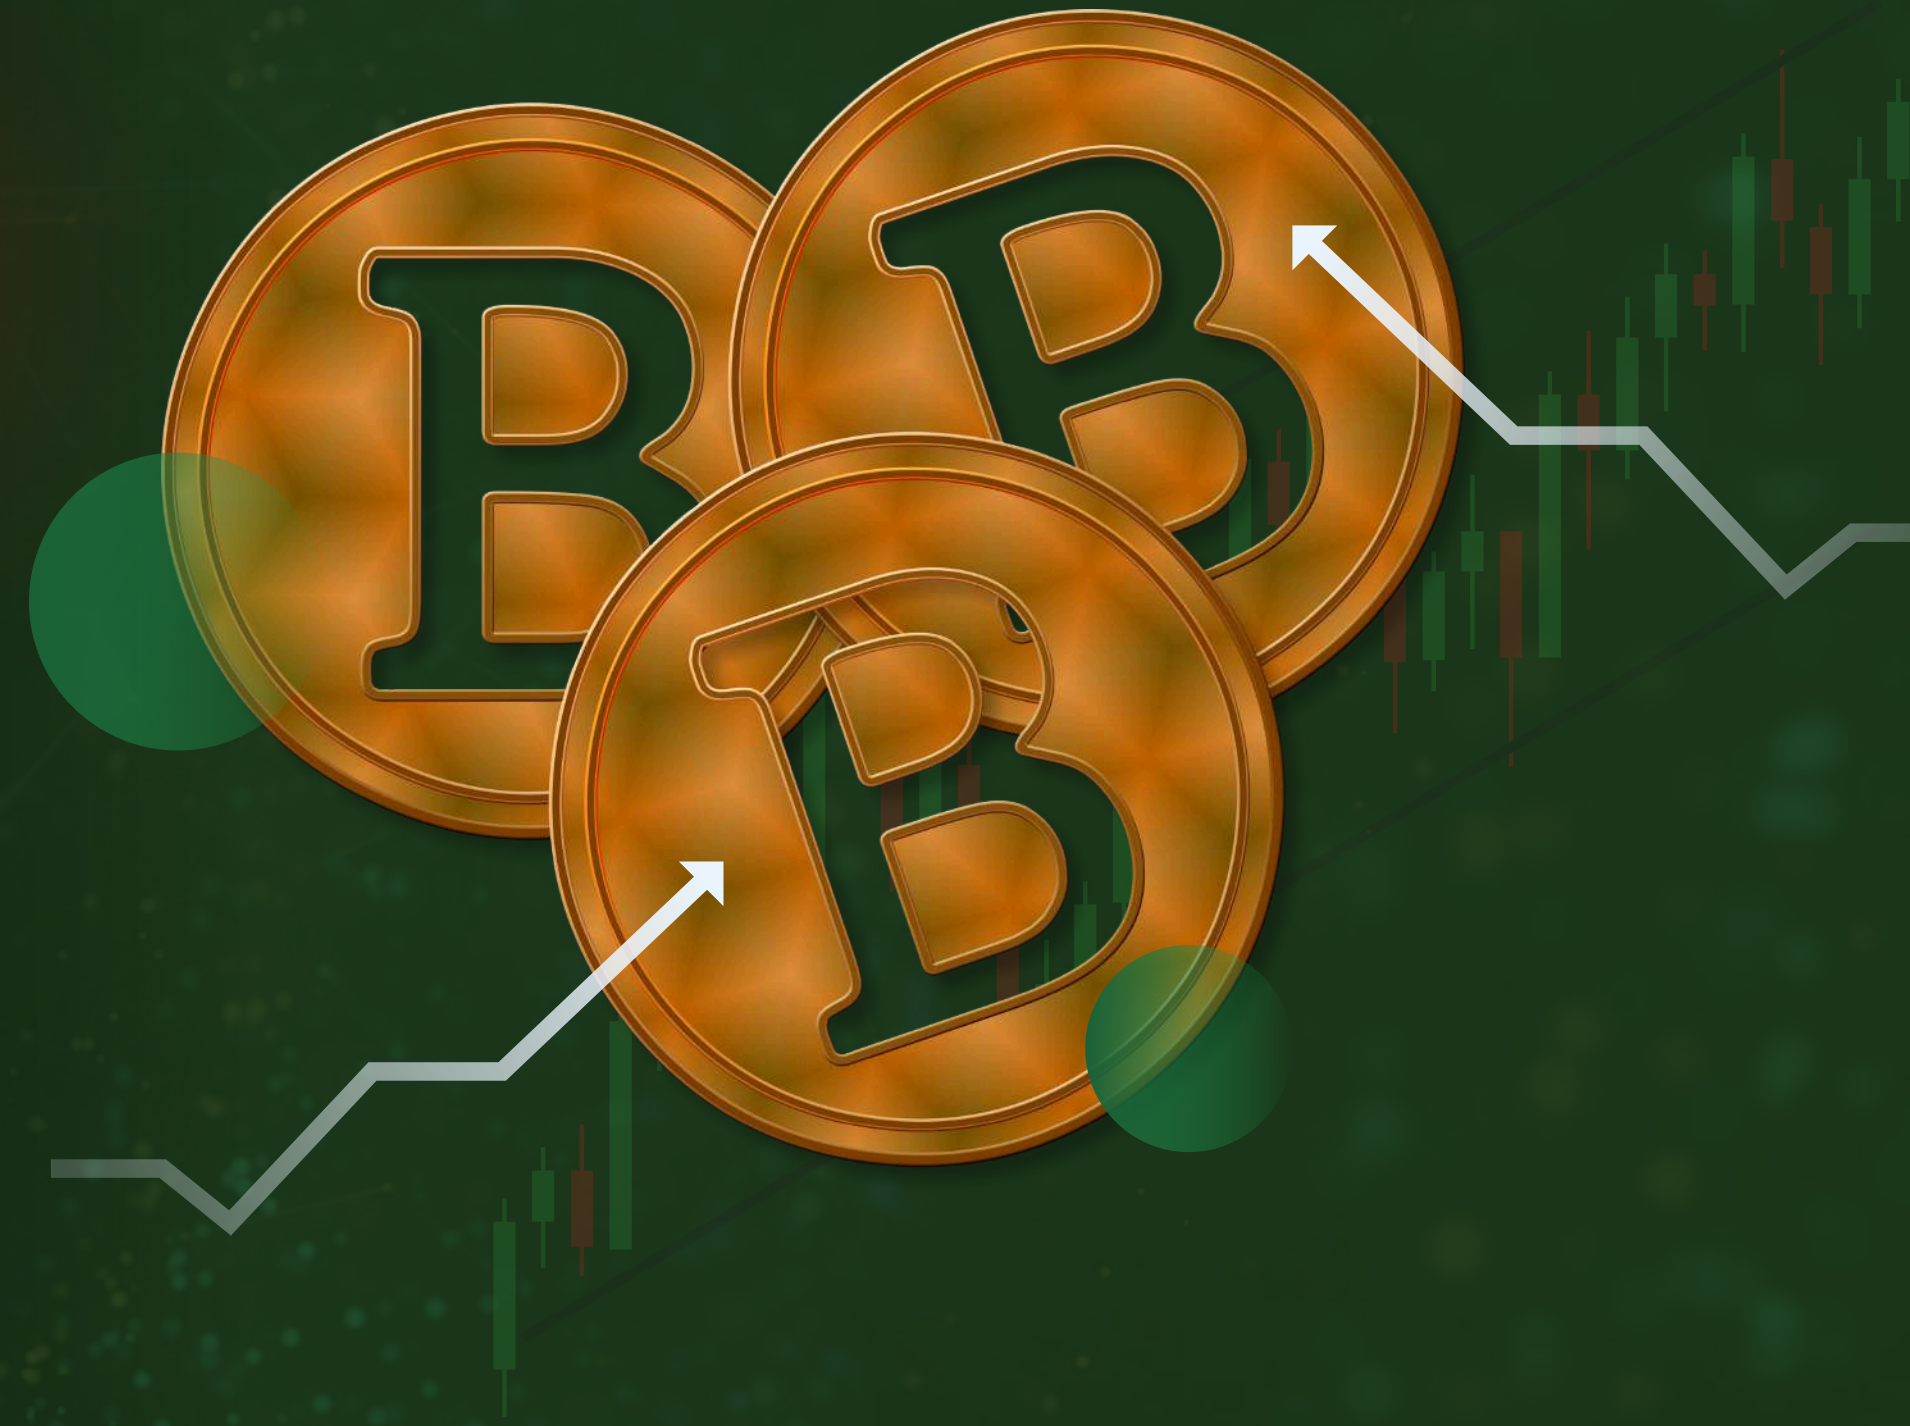

A 2 USDT fee applies to every withdrawal.

Monthly performance rewards are calculated on the first of each month.
